Election saved, but there's still some things you need to edit:

- You have chosen to use email ballots for your election, but you haven't entered any email addresses.

Step 3: Announcement Setup

How will people receive the election announcement and nominate candidates? (Choose **any** of the following)

☑ Email announcement - I have voter email addresses and I want each voter to receive an email with nomination instructions and a link to my election information

☐ Distribute announcement myself - Give me a list of voter keys and I will create custom announcements and distribute the announcements myself (email, mail/post, or walk-in voters)

☐ Facebook announcement - I have set up a Facebook group and I want to notify its members of my election
